

“I should have made
this decision years ago.”

Discover a completely new approach to traditional aged care with Sunrise Supported Living. At Sunrise, you can be as involved in the community as you like. We realise that different people have different expectations, needs, wishes and capabilities to engage in activities. So the choice is entirely yours.

Ours is a friendly and relaxed environment and our carers are always on hand to help residents with daily activities such as housekeeping, vacuuming, laundry and ironing. Whatever level of assistance you require can be provided.

Sunrise
Supported Living

All we do is Care

Sunrise supported living is a simple, but unique concept that allows residents to purchase and live in their own homes with dignity, privacy and individuality – with full support and care services available.

“I should have made this decision years ago.”

Welcome to Sunrise Supported Living

Today's older generation has higher expectations when it comes to retirement and aged care than any previous generation.

Now, there's a new and proven aged care alternative that lets them fulfil their aspirations: Sunrise Supported Living. It's neither a Nursing Home nor is it a Retirement Village. It's an altogether new concept in aged care and support.

The Sunrise concept is quite simple. Residents can purchase and live in their own home where personal choice, dignity, privacy and individuality are enjoyed, valued and encouraged.

Each home is fully self-contained with lounge/dining room, one or two bedrooms/bathrooms and personal laundry facilities. All are bright and airy and have their own balcony or courtyard. Kitchens are fully appointed with microwaves, cooktops, rangehoods and fridges.

Support in the privacy of your own home

At Sunrise, care and support are never further than a push button away. Fully qualified carers are on call 24 hours a day. A registered nurse is also available whenever required.

For couples, Sunrise offers different levels of care, from personal, domestic

or nursing care so that couples can stay together without the anguish of separation – a benefit simply not offered in traditional aged care/nursing homes. Naturally, they only pay for the services they use.

Personal Support

In the privacy your own home, residents can receive 24 hour assistance with tasks such as bathing, dressing and grooming; assistance at meal times; daily status checks; arranging medical and specialist appointments and 24 hour emergency response.

Nursing Support

Sunrise's registered nurses can individually tailor plans including medication management; palliative in-home care; nutrition monitoring; illness prevention and wellness programmes as well as liaising with your various health professionals to improve overall health outcomes.

Community Support

Residents can read in the library, watch movies in the leisure centre or join in the wide range of outings using our own private transport. Catching up with new friends at the monthly barbeque is something all our residents look forward to. Our carers are always on hand to help residents with daily activities, whatever level of assistance they require can be provided.
